Through this effort, Sample has been awarded the prestigious "Certificate of Green Partner" for being accepted into the Sony Green Partner Program.</p> <p>Sample, with a workforce of over 2500 employees, fully realizes the importance of its human resources as part of overall growth and strength in the provision of quality product and total customer satisfaction. ## Total Writ Scanner (TWS) - Macao 迪陶澳門訴訟搜查

In Macao, there is no central database for the civil litigation record and is not publicly searchable (which is different to that of Hong Kong). Based on our experience, the only way is to write (from a lawyer) to the judge of the corresponding court and explain the

reason behind the requested search against companies or individuals and the whole process usually takes months for a reply (if any). The related judge has sole discretion in either accepting or declining the request as contingent to whether he/she believes the given reason justifies the request for the requested search. Accordingly, the TWS only matches names against our database (based on obtainable records, which are mainly periodically gazetted bankruptcy and insolvency records on Macao's companies and individuals) .

### Total Writ Scanner (TWS) - Hong Kong 迪陶香港訴訟搜查

**TWS** reveals if subject has been listed as defendant, plaintiff, in liquidation or bankruptcy within our court database in the past **7 years** and that is subject to the "**Code of Practice on Consumer Credit Data**" issued by Office of the Privacy Commissioner for Personal Data, Hong Kong. It should be noted that the court record contained in a report might have been paid, terminated, vacated, settled or released prior to the date of a report was compiled. Civil claims are filed as the result of disputes of a commercial or other nature. The defendant is not liable nor the plaintiff eligible to the claim until judgement is obtained from the relevant court, which is not open for public inspection at present. Only the latest 50 records will be shown when total records exceed 50.
